

IF YOU SUSPECT YOUR CHILD MAY BE AUTISTIC:

A Step-by-Step Roadmap for Families

Notice & Observe

You may notice differences in communication, play, regulation, or social interactions

Seek an Evaluation

Reach out to your insurance provider and pediatrician to identify an evaluation center near you covered by your insurance

Talk with Trusted Professionals

Share concerns with your pediatrician, early childhood provider, or teacher

Complete an ASD Evaluation

A diagnostic professional or team will assess your child's skills in person to identify any potential diagnoses, supports and resources

Access Supports

Supports may include early intervention, school-based services, or therapies-many of which are included in eval recommendations

Never Stop Growing
